

KNIGHTTEK

COMPLETE FIRE SUPPRESSION SOLUTIONS

Five advanced solutions. One scalable product platform.

Purpose-built protection across modern fire risks

Portable response, facility protection and bulk deployment for lithium-ion, structural, industrial and specialty hazards.

THERMAL STOP

LITHIUM-ION FIRE SUPPRESSION

Rapidly cools lithium-ion batteries, interrupts thermal runaway and helps suppress flames, off-gassing and hazardous vapors.

LITHIUM-ION / EV / BESS

NFPA 18 • EPA Safer Choice

THERMAL SHIELD

RE-IGNITION PREVENTION & ISOLATION

A containment gel for damaged batteries that cools, seals casing breaches and helps prevent re-ignition during transport or storage.

RECOVERY / STORAGE / TRANSPORT

NFPA 18 • EPA Safer Choice

SUPPRESSIT

NON-FLUORINATED FOAM

A high-performance direct AFFF replacement designed for existing foam systems, apparatus and CAFS deployment.

CLASS A & B

NFPA 11 • UL 162 • PFAS-free tested

FIRE QUIT

ADVANCED WETTING AGENT

Improves water spread, penetration, coating and cooling for deep-seated combustible materials and general suppression.

CLASS A, B, D & K

NFPA 18 • PFAS-free tested

ELIXIR 5

NON-CONDUCTIVE WETTING AGENT

A pre-measured extinguisher solution that enhances wetting and cooling while remaining non-conductive for electrical hazards.

CLASS A, B, C, D & K

NFPA 18 • PFAS-free tested

Product attributes vary by formulation. Confirm product-specific SDS, certification records and quotation details for each application.

PORTABLE PRODUCTS & ACCESSORIES

THERMAL RUNAWAY FIREBOX

KTS 1043 | PATENT PENDING

A portable, fire-rated response system for small lithium-ion batteries. Designed for pre-runaway intervention and post-ignition suppression.

SYSTEM HIGHLIGHTS

- 18 x 10 x 15 inch enclosure
- 5-gallon suppression capacity
- 2-liter deployment canister
- Integrated filtration and mobility

CUSTOM ENGINEERED SOLUTIONS

Custom application devices can be engineered to meet individual customer needs.

Product images may not depict the exact container received. Container style is based on manufacturer availability.

The ordered product and quantity will not change. Availability, fill agent and lead time are confirmed at quotation.
